## EDUCATION

### National Open University of Nigeria (NOUN)

2015 – 2019 // Victoria Island, Lagos, NG. // Bachelors' of Science (BSc.), Computer Science

#### Notable Project - Students Complaint Management System (Dec. 2018)

In fulfilment of the requirement for the award of my Degree, I developed a full-stack (LAMP Stack) Web Application Using HTML, CSS, JavaScript, PHP and MySQL for Management of Students Complaints.

## OPEN SOURCE CONTRIBUTIONS

**Contributor @ OpenSauced** - An intelligence platform for discovering open source insights.

// **15+ PRs** // **37+ Code Reviews** // **TypeScript, NextJS, Storybook, Playwright, TailwindCSS**

- Created a feature for forcing user login encouraging new user onboarding.
- Improved user session auth. merging two distinct functions into one performant one.
- Resolved browser support issues related to unsupported array method causing regression on some major mobile browsers.

[View More Contributions](#)

**Contributor @ BioDrop** - A link platform to discover & showcase user content in one-place.

// **NextJS, MongoDB, Mongoose, TailwindCSS**

- Created a feature for tracking and saving changes on user profiles and links models to a changelogs collection and logging changes to terminal with middleware.
- Improved UI accessibility on the user manage repo route's repo deletion experience.

## RELEVANT WORK EXPERIENCE

### Web Developer @ itbey Co.

Oct. 2021 – Present // Remote

- Design/Develop high converting, cross-browser compatible, responsive websites and custom web apps for a diverse array of client, including but not limited to Small/Medium-size Corporates, Associations, Non-Government and Government Organizations.
- Clients includes; Nigerian Army HQ Department of Civil-Military Affairs (AHQ-DCMA), African Shipowners Association (ASA), African Women in Maritime (WIMAfrica), Cybernetics International Services Ltd., Multifreight Nigeria Ltd, Natural Eco Capital, HRMOffice Ltd., to mention a few.

### IT/Communications Officer @ Nigerian Chamber of Shipping

May 2018 – Sept. 2021 // Full-time // Apapa, Lagos, NG.

- I transformed organization's processes through innovation/implementation of custom-made solutions helping to reduce operation cost by 45% – 70% while improving organization viability.
- I redeveloped and maintained the organization's website, integrating new features which led to a 325% increase in digital growth/leads generation, a statistic measurable by website traffic, social media engagements, sales of products/services, etc.
- I developed a custom membership information management web application for in-house usage, which actively saves the organization around \$2000 - \$3000 in cost per month for outsourcing a 3rd-party software.

### IT Projects @ Nuropel Africa

Jan. 2015 – Feb. 2018 // Part-time // Ikeja, Lagos, NG.

- I developed and maintained cross-browser compatibility & mobile responsive website for organization and client primarily using JavaScript, PHP and WordPress.
- I independently handled and shipped web development/design projects and interface with clients and associated stakeholders on a daily basis.

## PROJECTS

### RobustHR

A product website for an all-in-one HR management software, built with TailwindCSS, PHP (WordPress CMS) and Advanced Custom Fields (ACF).

[Live Preview](#)

### Multifreight Nig. Ltd.

A website built with PHP/WordPress by integrating custom (Bootstrap) blocks with a custom Page Builder created with Advanced Custom Fields.

[Live Preview](#)

### Cybernetics Oil (CISL)

A website developed for a petroleum products trading company in Nigeria built with Bootstrap, PHP and WordPress CMS.

[Live Preview](#)

### TravelAdvisor

A TripAdvisor Clone with Google Maps/Places API Implementation. Built with React, TailwindCSS, React Context API and Axios for querying endpoints.

[Live Preview](#) [View Code](#)

### Goo glo

A Realistic Google Clone with Voice Search, Dark Mode and Refined Search Queries Settings etc. built with React, TailwindCSS & Redux/Redux Toolkit.

[View Code](#)

## SKILLS

### Programming Languages

JavaScript (ES6), TypeScript, PHP, SQL/MySQL.

### Libraries & Frameworks

React, NextJS, Redux/Redux Toolkit, Jest, Playwright, Storybook, NodeJS, TailwindCSS, Bootstrap, Material UI.

### Tools & Platforms

Git/GitHub, Webpack, Babel, Vite, Firebase, Netlify, Heroku, WordPress.

## INTERESTS

Blockchain, GoLang, Rust, Sports, Music, Traveling, Hiking, Reading.
